has been overwhelmed with invitation by mail, by wire and verbally to visi other western cities. While this proof of his personal popularity is naturally gratifying to President McKinley it is also embarrassing to him, because of his inability to accept all the invitations and his unwillingness to appear to discriminate. He may to visit other places, but the chances are that he will not. His promise to visit Chicago during its Autumn Festival was obtained many months ago, and it was his desire to ssist in welcoming the Minnesota Volunteers home, from the Philippines that cauesd him to decide to go to Minneapolis and St. Paul; his interest in and kindly feeling toward the volunteers are known to all who have come in contact with him.

Representative Eddy of Minnesota who is an expert in feeling the public pulse, is in Washington. Since Congress adjourned he has been almost continuously on the move, and has been from Massachusetts to the State of Washington, making it a point to find out the condition of public sentiment. As a result of his investigation, he says that the foreign policy of the administration will be the principal issue in the Presidential campaign. Of that issue, he said: "The sentiment of the country is, in my opinion, overwhelmingly in favor of maintaining American supremacy over every foot of territory which came to us as a result of the war with Spain. The anti-expansionists of the East have really done President McKinley a good turn by their calumniations. For they have aroused the sentiment of the people and made an issue that will be lage, a Chinese Threatre, acrobats, and cusettled in the Presidential election next toms; an Oriental Village, London Ghost year, and settled right, as every question involving American dignity and honor has always been settled when

submitted to the voters." Although now a voter in New York, ex-Secretary Carlisle can't keep his fingers out of Kentucky politics. While in Washington, several days ago, be made a statement showing in the most positive manner that in 1896. Goebel claimed to be a sound money ocrat and was working with that of the country which will assist in the faction of the party. Ex-Senator entertainment of sight seers of the big Blackburn, who has been in Washington about a week, supposed to be sick says that Mr. Bryan has not crawfished on his promise to speak for Goebel, and that he will manage Bryan's stumping trip, which, he says, will be confined to the strong Democratic districts, because its principal object is to bring kicking Democrats into the party

McKinley while he was Governor of Ohio, and during the Presidential cam paign, but who has been for the last two years, United States Consul at Liverpool, England, is in Washington on a vacation. Being a close observe and a careful man, these words of Mr. Boyle's are gratifying to all Americans and should be valuable to the Ameri can manufacturer who is seeking to extend his foreign trade, especially with England: "The most gratify ing thing to a citizen of this country the ever increasing demand in England for Yankee manufacturers. What I would try to impress on our cople is the vital necessity of sending over only high class goods. By keeping our products up to a high standard we secure the considence of the English, who are always willing to pay the very highest prices for the best. But any deterieration from this standard breeds distruct and means a liminition of imports. In some lines. by a failure to pursue this correct policy, we have already suffered loss, notably in the bicycle trade, which ceding year, owing to the fact that great many trashy wheels were sent from his country to England, the result being that some degree of suspicion was sure to attach to all American makes of licycles in the future."

It seems difficult for the Navy De partment to issue an order concerning Rear Admiral Schley, which does not but the inventive faculties of some put the inventive faculties of some newspaper writers on double duty and produce a lot of stories which anyone at all familiar with the practices of the department know to be farcical. Sometime ago, Admiral Schley asked to be given sea duty, and last week be was ordered to hold himself in readi-

request, the appointments of that rank to his seniors. First came a batch of stories about the command being an unimportant one. That is pure bosh. No flag command is regarded in the Navy as unimportant, and any one of them may become at any time the most important. It is always cus tomary before assigning officers of high rank to any particular duty, to ascertain their wishes, and there isn't any reason for supposing that the custom will be deviated from in this case Therefore, it may be taken for granted that if the order is issued assigning Admiral Schley to the command of the South Atlantic Squadron, he has no objection to assuming it.

Another great discovery has been made and that too, by a lady in this country.
Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermin-ed and death seemed imminent. For three months she coughed incessantly, and could not sleep. She finally discovered a way to recovery, by purchasing of us a bottle of Dr. King's New Discovery for Consumption, and was so much relieved on taking first dose, that she slept all night; and with two bottles, has been absolutely cured. TO OUR SUBSCRIBERS The TRANSCRIPT has said little, too little in fact, as to its subscription accounts. One reason has been the protracted illness of the editor. Bills are being sent out now, however, as fast as they can be reached and early replies have been running for an extended time and no notice is taken of the bills sent they will be put in the hands of collectors. Such a cause is positively necessary. Of subscription accounts an experienced newspaper man writes :

"The practice of continuing subscriptions, indefinitely made, year after is the average limit of man's memory, when it comes to ordering newspapers sent him. If his delinquency runs beyond that limit, he forgets that he ordered the paper and in many cases will swear that he never ordered it. The larger his delinquency bill, the of the Kent county papers has charged surer he is and the harder he will swear that he never ordered it. This is a fact and a condition of human nature that must be recognized as a factor in the newspaper business.

"Nor can credit ever be eliminated from the newspaper business. It likewise is a condition which must be recognized. But there is a middle ground where the publisher may tread safely. It is temperance in credit, extension. There is a wide-spread desire upon the part of a large portion of the rank and file of Delaware Republicans for a "getting together" at the election next ber. J. Mulligan. thing or anybody save economic and honest government under Republican rule. It can be done if only the rank and file will turn from the false prophets for the honesty and ability among their own numbers. This is a consummation devortly to be wished because of the beneaff to the State and the counties and the districts. Look at the road accounts, examine the county finances, behold State manipulations and the results. It do not want to attempt to commerciate the results. Some of them to attempt to commerciate the results. Some of them stand out more bodly than others, and to fine page. He evidently thinks very little of the Delaware kind so graciously granted by our Democrate kind so graciously granted by our Democrate its officials. He describes them fully by reading a letter, evidently from a prominent Delaware Democrat. As to the result of the Chicago Conference of last week Col. Bryan says:

"The discussions by the delegates in the conference will do more for the good of the public than we can now realize. I do not want to attempt to commerciate the results. Some of them stand out more bodly than others, and to name part of them would not do any Friend's School.

There is so much selfishness and often

so little patriotism among those who good. The trust question is not yet irect in public affairs that it would settled, and it will not be settled unti Hundreds, perhaps thousands, of the adjudication." most conservative Democrats in Delaware to-day would support the candidates of such organization or party. "I cannot say that I came to Chic dates of such organization or party. They see the necessity for reform and economy now withheld by selfish partisans of both parties. Will the effort be

The TRANSCRIPT in giving expres sion to the above sentiments departs not one whit from its well known position upon Delaware Republicanism in its recently made history. It is firm for upholding the honorable name of Delaware in all its officers and offices. It is desirous, nay more, it is anxious they can be reached and early replies for Republican success at the next elec-are requested. Where subscriptions conservative of Democrats are apparently so far in the minority in their

WHO WILL DEAL!

The irrepressible and irresponsible Evening Journal in its issue of Thursday misrepresents the TRANSCRIPT's remarks of last week upon the ability of Addicks to make deals for the Sena year is a bad one. Two or three years torship. The TRANSCRIPT pointed is the average limit of man's memory, out the fact that men elected to the General Assembly as opponents to Addicks' aspirations for the U.S. Senate had voted for him-three of them Democrats. Further the Journal was asked this question: "Does the Jour-nal know that one of the most reliable an alliance between Addicks and a Democratic Candidate for the Senate?"? Ignoring such pertinent facts the Journal falsely intimates in the follow-

ing way that the TRANSCRIPT is mak ng ready for a deal with Addicks: "The Middletown Transcript ex cepts to our statement that Addicks annot make a deal with the Regular Republicans It intimates that he can. (This is positively false. No language of ours justifies that statement-Ed The Transcript is the motive power of the Higgins wheel within the DuPon wheel of the Regular Republican party, and its admission that a deal with Ad dicks is within the range of probability. or possibility, is interesting. Is the Transcript laying the ground for a deal between the Union Republicans and the Higgins wing of the Regular Re-

In as much as the editor of the TRANSCRIPT has seen neither ex. Sens. tor Higgins nor Col. duPont for twelvemonths nor heard from them in that time save the ever welcome letter to all publishers, "Enclosed find re-newal of subscription for another year," &c, it is ridiculous to charge or intimate that the TRANSCRIPT represents them in any way save as it represents them among all honest Delaware ans who seek just and economic government. And further honest and fair iournalism would not drag in the names of such honorable citizens of any party in such connection. Every Dela warean knows that Col. duPont nor Mr. Higgins would not "deal" with Mr. Addicks, an I the Journal knows

the TRANSCRIPT would not deal. But will the Journal answer the BIG INTIMATION made by the TRANSCRIPT that individual Democrats might deal? Will it tell what it has heard of the prominent Democratic aspirant for the Senate being in a deal subscription and if any discrepancy ex- with Addicks as charged by the News ists notify the office-the sooner the and Advertiser? May there not be a deal again within the Democratic party by Addicks as the TRANSCRIPT lutimated? That should interest the Journal. Does it?

MEN WASHING DISHES

For several years the men have been rocking the cradle while the women Century Clubs," the Committee meetings, &c, but that 10,000 men will have to engage in dish-washing in Chicago, or go hungary, is rather startling. A despatch from the Windy City says

"Women have not only crowded men out of many positions formerly occube elected - thus giving apparent pied by them in Chicago, but at present strength to the cause of Addicksism are crowding them into woman's sphere of housework.

"There is a great dearth of servant Republican union is the fact that when girls in Chicago now. This is said to be an indication of good times, no: because there are many more girls needed than formerly, but because more women are employed in factories and they prefer to work there. How we overcome distance these days! Took Washington two weeks to go to New York—then the capital—to be inaugurated. Now, the President sat at his White House desk and by touching a button started the wheels of the Export Exposition.

It is a great show—not complete as to every path and approach just

There are two sorts of incompleteness—the slip-shodness of caresness, deplorable enough; and on the other hand the everlasting getreadiness that is always worth looking at and always full of promise.

We should hate to think of this as a completed store.

Both the National Export Exposition and the International Exposi of the store are ready! Every day the store is new-growing; live; vigorous; sparkling in its very life-but not completed.

A very hearty Wanamaker welcome to the home folks and visitors come these days, rain or shine, to study the world's newness in fabrics. What a task they have had! - our representatives, who, grounded In their knowledge of Philadelphia's tastes, have worked among the loom men and designers of two continents to give these tastes new expression. We are able to decide human limitations—which in large part accounts for the singular leadership of this store. Our experts are expert in one

They have the broadness of mind that comes of liberal education and travel—may excel as linguists or in some branch of polite arts; but as to merchandise, their study and effort is concentrated on one line. We could not even be considerable wholesalers without an entirely different organization, for buying for the needs of provincial stores unfits men few success in catering to the tastes of the best dressed women in the world. Dress leaders—social leaders—even in Colorado or New Mexico, catch the subtle difference, and order gown stuffs here.

Selection counts-not one weave or color play in five would suit Philadelphia; not one in ten if our staff stopped its helpful suggestions. Yet, think how the looms must whir, when even with skilled culling we have now full five thousand styles in dress goods.

Wn. B. Shan & Co Bright, cheery Message to our Multitude of Friends

We have started the Fall season happily. Greater Oak Hall was never in its history of nearly 40 years better able to meet the demands of its phenomenally expanding business. This promises to be the greatest year in the annals of this mammoth establishment.

And we have to thank you and your friends for this. It is you who have made our growth possible, who have helped us to build up this wonderful store—have helped us create more than sixty million dollars worth of business. And that's a record equalled by no other clothing house in the world! We are proud of it—say so unhesitatingly. But if we did not give you the very best of clothing goodness this tremendous growth would not have been possible. Add to this moderateness of price and you have some of the secrets of the Wanamaker & Brown success. You can always order by mail with perfect safety.

Gentlemen:—The American Separator I bought in September, 1897, is a boss machine. It has given me perfect satisfaction and done everything you claimed for it, and more. When it bought it I was using a Reid Creamery, it increased my butter more than a pound on every bought it was using a Reid Creamery, it lorenessed my butter more than a pound on every case to prove the second of the second has been used every day since I bought it, has never been out of order and does not about the second of the second has been used every day since I bought it, has never been out of order and does not about the second has been used every day since I bought it, has the second has been used every day since I bought it, has tried setting the string for raising calves, the calves I have raised since I had the Separator have had nothing but milk from the Separator, it does not leave any cream in the milk, I have tried setting the skimmed milk in pans but have never found any cream. I have made an average, as near as I can tell, 5 pounds or a little over of butter to every hundred pounds of milk. I would advise any one interested in making butter to buy an American Separator, and will say if I could not buy another American Separator I would not think of selling mine at double the price I paid for it. You can show this letter to anyone you like and give me for reference.

Yours respty, SUMMIT BRIDGE, DELAWARE, October 25, 1898. J. F. McWhorter & Son, Middletown, Del.

Dear Sirs: —The American Separator I bought from you is a good machine and will do all you claim for it: it increased my butter more than a pound per week on each cow that I was milking. I have had some experience with other makes, but like the American much better than any I have seen or tried, I consider it the lightest running machine on the market and the easiest to clean and operate, I would not part with mine if I could not get another, and I

ELKTON, MARYLAND, October 31, 1898. Gentlemen:—The American Separator we bought from you has given entire satisfaction; we find it has done everything you claim for it as far as we have had experience. Our cowa we find it has done everything you claim for it as far as we have had experience. Our cowa more falling when you put the machine in, but I feel safe in saying that we have had an increase of butter; we are sure it takes all of the cream from the milk, is very easy to clean and operate; we think we make better butter and save a great deal of labor. You ask us in your letter if we would part with our machine for the price we paid if we could not get another American, our answer is we would not. Yours respity, MISS LYDIA A. REYNOLDS.

J. F. McWhorler & Son, Middletown, Del.

Gents.—Yours received, and will say in reply that we are very well pleased with the American Separator, we had a little trouble at first as we had never had any experience with a separator, but we are all right now and think it does everything you claim for k. My butter is better than when I used creamery and is much less work; it takes every particle of cream from the milk, and is very little work to clean and keep in order. Will close by saying once more, that we are well pleased with it.
